

XK870J ▶ TOP SIZE

VSM CERAMICS

Grain type	Ceramic
Bonding	Full-resin bonded
Colour	Red
Backing	J-Polyester
Flexibility	Flexible
Production width	1,480 mm

Materials

Features

Self-sharpening ceramic-grain abrasive belt with smooth backing. Impressive results when working on very hard surfaces; with an aggressive cut and a very long service life. Slightly less flexible than XK870F, but a very good alternative for wet grinding applications. XK870J is very popular for pre-sharpening knives.

Grit range:¹⁾

Benefits

- > Self-sharpening effect constantly produces new sharp edges and thus enables much higher stock removal rates
- > The additional grinding active layer VSM TOP SIZE ensures a cool cut and an extended service life
- > High wear resistance
- > Highly resilient

Wear pattern of the grain

The microcrystalline structure of the **VSM CERAMICS** series enables a much more subtle breaking down of the grain and constantly produces new sharp edges.
